- 25X1A 1. [redacted] Comment. The shipment possibly carried component units of the 90th RL Regt (US) of the Second Gds Mecz Army. According to transportation reports, this shipment [redacted] was dispatched from Velten to Jueterbog. However, in this case the train mentioned would have entered Boetzow railroad station from the north.

25X1B

- 25X1A 2. [redacted] Comment. These shipments were connected with the return to their military posts of component units of the 10th Gds Tank Div. According to transportation reports, a total of 25 troop trains of this division were dispatched from the Letzling Heath area to Satzkorn and Priort between 30 September and 3 October. Empty troop trains observed returning to the Letzling Heath and the observation that, on 8 October, the Kavallerie Schule was only about 65 percent occupied indicate that further shipments will go to the Kavallerie Schule in Krampnitz, [redacted].
